

NRO

10 SEP 1964

Dear Dr. McMillan:

I understand that Dr. Chamberlain, along with several of his officers from our Office of Scientific Intelligence, gave you on 2 September 1964 a briefing on Soviet anti-satellite capabilities. In addition to the briefing, they also furnished you a copy of "Assessment of New HEN HOUSE Facilities in USSR" (OSI-SE [redacted])

STAT

The matter of possible and probable Soviet capabilities in the anti-satellite field is one of great importance and we share with you the concern over it. I trust that the briefing you were given, plus the follow-up study which Dr. Chamberlain has agreed to undertake, has been fully responsive to your desires. If we may do more for you on this matter, please do not hesitate to communicate your desires to me.

Faithfully yours,

(Signed) Marshall S. Carter
